1 E-Commerce Website: Fresh Harvest Connect

Assignment #1 (5%) — a Wix storefront built around the 7Cs of e-commerce web design: Context, Commerce, Connection, Communication, Content, Community, Customization.

Live site: <https://telgotesumeet.wixsite.com/fresh-harvest-connect>

Design Process

Planning work behind the storefront: target-audience personas, information architecture, and the resulting wireframes and style decisions. This project builds on the same local-farm concept developed as "Pure Harvest Connect" for the Digital Marketing course — the brand name was updated to Fresh Harvest Connect for the live Wix build below.

Original brand concept logo, "Pure Harvest Connect" — designed for the related Digital Marketing course project and carried forward into this build.

Buyer persona: the health-conscious remote professional.

Buyer persona: Carlos, the urban gardener.

Buyer persona: the community-minded shopper.

Information architecture — site map for desktop and mobile (planned under the original "Pure Harvest" concept name).

Wireframes — home and about page layout.

Wireframes — mobile navigation and page flow.

Design elements — color palette, typography, and navigation style.

Site Content (the 7Cs)

<https://telgotesumeet.wixsite.com/fresh-harvest-connect>

Context:

Fresh Harvest Connect emerges as a revolutionary platform, fostering a direct connection between local farmers and conscious consumers of Kamloops, in a world dominated by mass production and global supply chains. At the heart of our mission is the belief that supporting local agriculture not only ensures

the freshest and highest quality produce but also strengthens the fabric of communities and promotes sustainable farming practices.

Commerce:

Fresh Harvest Connect offers a wide range of products at an affordable price range, directly from the fresh farms to your shopping carts.

Connection:

The website offers a subscription form to our newsletter and links to our social media platforms to connect with us. You can also contact us through our email.

Communication:

Fresh Harvest Connect posts interesting articles every Sunday on the blog page to communicate the importance of sustainability and the health benefits of fresh locally sourced produce.

Content:

The About Us, every product description and the blog posts are not AI-generated but curated by the admin of the website.

Community:

The events we organize help us to build a community with the local people, but social media helps us to build a bigger community online.

Customization:

Although the images are taken from online resources for aesthetic appeal to attract customers, the content is customized to connect with customers personally.

Overall, the website is designed to solve problems with user user-friendly experience for our target audience.

Story

Kamloops Supermarket's online e-commerce platform offers a seamless shopping experience for residents, providing access to a wide range of locally sourced groceries and products. Customers can browse, buy, and get their things with ease because of the user-friendly navigation and practical delivery options. This allows them to enjoy the convenience of online shopping while simultaneously supporting the local economy. In order to build trust and loyalty in the community, Kamloops Supermarket places a high priority on customer satisfaction. To that end, every order is handled

What's Unique?

Local and Indigenous Products: Embrace the local culture and community by offering a diverse selection of products from local farmers, artisans, and Indigenous producers.

- Streamlined Online Order Fulfillment: In the age of online grocery shopping, implementing robotics in the fulfillment process can improve the efficiency of order picking and packing. Automated systems can navigate through the store.
- Customer Assistance and Navigation: Robots can be programmed to assist customers with locating products within the store. Equipped with interactive displays or voice-activated

Moreover, these robots can provide information about product locations, promotions, and even offer personalized recommendations.

- Community Engagement and Events: Foster a sense of community by hosting regular events, workshops, and activities within the supermarket.
- Health and Wellness Focus: Cater to the growing demand for health-conscious products and services.

Provide a wide range of organic, gluten-free, and locally sourced

Why pledge now?

Social Impact: We will highlight how the supermarket will benefit the local community and our society by providing convenient access to fresh, locally sourced products. We will also try to explain how this will improve their quality of life and contribute to the local economy by supporting local farmers and producers.

Employment opportunity: We will explain that how the supermarket will create employment in the community, providing employment opportunities for local residents. This can be a strong motivator for backers as it will have a positive impact on employment.

Food Security: We will show the importance of having a local supermarket to ensure food security for the community, especially during times of crisis or supply chain disruptions. This

Gold Level CA\$ 20

Gold Level:

- Advancement Criteria:** Achieving the gold level usually requires a higher threshold of points or spending.
- Points Multipliers:** Gold members may experience even faster points accumulation, sometimes through special promotions or exclusive events.
- Exclusive Perks:** Gold members often receive exclusive perks, such as free or upgraded services, VIP events, or personalized shopping experiences. This tier aims to make customers feel valued and appreciated for their loyalty.

Story Risks	security for the community, especially during times of crisis or supply chain disruptions. This can resonate with backers who are concerned about food access and sustainability. Environmental Sustainability: We will definitely highlight the sustainable practices the supermarket will implement, such as reducing food waste, promoting reusable packaging, and sourcing products locally to reduce carbon emissions from transportation. Learning & Training Opportunities: We are planning to offer educational programs or workshops on topics like healthy eating or sustainable living. We will try to emphasize how this will benefit the community and align with backers' interests in education and wellness. Transparency: We will clearly outline how the funds raised through Kickstarter will be used to make the supermarket a reality. We will break down the costs for things like building renovations, equipment purchases, and initial inventory, and explain why this funding is essential to the project's success. We will also assure backers that we will provide regular updates on the project's progress and how their funds are being used. Transparency can build trust and encourage more people to support our campaign. Risks and challenges

Delivery Delays or Disruptions: External factors such as weather conditions, traffic, or unforeseen circumstances can lead to delays in deliveries, impacting customer satisfaction.

Mitigation Strategy: Implement robust logistics management systems to track orders in real-time and provide accurate delivery estimates to customers. Additionally, maintaining open communication channels with customers, informing them promptly about any delays, and offering compensation or discounts for inconveniences can help mitigate dissatisfaction.

Inventory Management: Maintaining sufficient stock levels of locally sourced groceries and products can be challenging, especially if demand fluctuates or

Risks and challenges

Delivery Delays or Disruptions: External factors such as weather conditions, traffic, or unforeseen circumstances can lead to delays in deliveries, impacting customer satisfaction.

Mitigation Strategy: Implement robust logistics management systems to track orders in real-time and provide accurate delivery estimates to customers. Additionally, maintaining open communication channels with customers, informing them promptly about any delays, and offering compensation or discounts for inconveniences can help mitigate dissatisfaction.

Inventory Management: Maintaining sufficient stock levels of locally sourced groceries and products can be challenging, especially if demand fluctuates or if there are supply chain disruptions.

Mitigation Strategy: Invest in inventory management software to monitor stock levels and predict demand trends accurately. Establish strong relationships with local suppliers to ensure a steady supply of products. Implementing a just-in-time inventory system can also help minimize excess inventory while meeting customer demand.

Cybersecurity Threats: As an online e-commerce platform, Kamloops Supermarket is vulnerable to cybersecurity threats such as data breaches or hacking attempts, which can compromise customer information and damage trust.

Mitigation Strategy: Implement robust cybersecurity measures, including encryption protocols, firewalls, and regular security audits, to protect customer data. Educate employees about cybersecurity best practices to prevent

Risks

data. Educate employees about cybersecurity best practices to prevent internal breaches. Additionally, offer secure payment options such as tokenization or two-factor authentication to enhance transaction security.

Quality Control: Ensuring the quality and freshness of locally sourced groceries and products during the delivery process is crucial to maintaining customer satisfaction.

Mitigation Strategy: Implement stringent quality control measures, including regular inspections of products before packaging and refrigerated transportation for perishable items. Provide clear guidelines to delivery personnel on handling and storage procedures to maintain product integrity. Offer a satisfaction guarantee or return policy for any subpar products to reassure customers.

Customer Service Challenges: Dealing with customer inquiries, complaints, or returns efficiently is essential for building trust and loyalty.

Mitigation Strategy: Invest in a responsive customer service team trained to handle various customer issues promptly and courteously. Implement multiple communication channels, such as live chat, email, and phone support, to cater to different customer preferences. Utilize customer feedback and reviews to identify areas for improvement and continuously enhance the shopping experience.

Risks and challenges (continued) — customer service commitments.

To market the Kamloops Supermarket project on Kickstarter, the promotional strategy will highlight its unique value proposition as a local e-commerce platform supporting the community. This will include emphasizing the convenience of online shopping for locally sourced groceries and products, coupled with the opportunity for residents to support their local economy. The campaign will utilize engaging visuals, compelling storytelling, and targeted social media outreach to effectively communicate the project's mission and encourage backers to contribute towards its success. Additionally, offering exclusive rewards and incentives for early supporters can incentivize participation and generate momentum for the campaign.
